## REPORT OF THE PRESIDENT

The year just ended has been another quiet, and comparatively uneventful, but quite satisfactory year at Lakeside. The reports of Superintendent Ranney, and of Miss Ellis, the principal of the Training School, will give you all details necessary regarding the operating side at the hospital. The report of Mrs. North, Secretary of the Board of Lady Managers, will give you the point of view of the active members of our Board, who are constantly investigating and inspecting the operations of the hospital from day to day, as well as taking part in its management; especially in the linen department. The report of the treasurer will show that for the first time since we entered into our new buildings with their increased opportunities of service, but also largely increased operating expenses, we have ended the year without any deficit, and in fact with some small surplus, which by recent vote of the Directors, has been applied towards the old deficit of about \$8,500.00 of the year 1904.

The Board of Trustees has held monthly meetings, except for a month or two in the summer when most of the members were absent from the city.

The Executive Committee have held monthly conference meetings with the Visiting Staff of the Hospital, as usual, at which time all matters of joint and general interest in hospital affairs, are discussed with great freedom and mutual benefit. Aside from these joint meetings, the Executive Committee have held nine meetings during the year.

The Endowment Funds to the Hospital, amounting to \$630,000.00, are considered to be well invested, yielding an average rate of income of upwards of 6% per annum. I wish particularly to express our sorrow at the death of Mrs. W. H. Sabin, one of the earliest members of our Board of Managers, and who always manifested much interest in Hospital affairs.

I desire also to express the regret of the Board of Trustees at the resignation of Miss Sutherland as housekeeper, her services having been unusually acceptable and efficient.

Respectfully submitted,

SAMUEL MATHER,

President.

## REPORT OF THE SECRETARY OF THE BOARD OF MANAGERS

As the closing of another year calls for the annals of the Board of Managers, we find mention of the death of Mrs. W. H. Sabin, one of the earliest members, one who, although for later years unable to take active part, yet to the end of her life watched the growth and enlargement of the Hospital with never failing interest.

With much regret the resignation of Mrs. E. S. Page from active membership of the Board was accepted since her great interest and work for the children was the beginning of that which by her continued donations and the later generous ones of others, has made that department, as it were, the pride of the Hospital.

The introduction of Kindergarten work by Mrs. Page in the year 1900, has since been continued and proves a source of great help to the nurses as well as instruction and recreation for the children. To the Kindergarten teachers and other young ladies who have so cheerfully volunteered their services, the Board acknowledges their great obligation.

The duties of the various committees have been carried on with constantly increasing interest in every way, each endeavoring to use the years of experience for the better systematizing and perfecting the desired work.

The condensed yearly report of the Linen Supplies Committee, which is responsible for the purchase, distribution and disposal of all such furnishings after various experiments, hope for the future to report labor and expense reduced and that in the introduction of the probationers in duties connected with the work, it may be clearly demonstrated that carefulness and economy is the most important rule for the best management of our Hospital.

The resignation of Miss Lander Sutherland as housekeeper was accepted with much regret since her faithfulness in duty had proven her most valuable in many ways not directly demanded by her position and had endeared her to all with whom she came in contact.

The donations for Thanksgiving and Christmas were most generous, so that all who by illness were prevented the enjoyment of the home festivities, were so far as possible made recipients of the good wishes and kindness which attends those days.

The Board wish once again most emphatically to endorse the continued co-operation given at all times by the Superintendent without which no work of the committees could be complete.

The beginning of the new year, with constantly increasing work and realizing the responsibility, yet the Board of Managers undertake it all with renewed courage, hoping for better results to be recorded at the end of the next twelve months.

Respectfully submitted,

ANNA M. NORTH,  
Secretary.

## REPORT OF THE SUPERINTENDENT

Cleveland, Ohio, Jan. 1, 1906.

The Board of Trustees of the Lakeside Hospital:

Gentlemen: I herewith present for your consideration the Thirty-ninth Annual Report of the Lakeside Hospital for the year ending December 31st, 1905.

The work of the Hospital during the year shows an increase of 6% in the number of patients cared for.

The number of days of Hospital treatment has been as follows: January 4,857, February 5,378, March 6,192, April 5,804, May, 5,660, June 5,435, July 5,307, August 5,397, September 5,211, October 5,256 November 4,908, December 4,849, making a total of 64,240.

The number of days of free treatment given in the open wards was 31,286 or 64% of all patients admitted.

The work at the free dispensary did not show the increase in attendance as we might naturally expect from this department. The total number of visits made were 28,418; of this number 7,640 were new cases. There were 12,885 prescriptions written and 6,533 surgical dressings done. The Hospital and Free Dispensary together have furnished 59,704 days of free treatment to the public of Cleveland during the year.

The total expenditures of the Hospital amounted to \$139,292.07. The disbursements for the same are shown in the following table:

The Hospital receipts for the year from pay patients and other sources amounted to \$67,851.95, as shown in the following table:

### FROM—

Nursing by the school .....	\$ 548.25
Open ward patients .....	14,843.07
Private ward patients .....	46,058.21

Dispensary .....	2,264.70
Interest on deposits .....	37.10
Miscellaneous .....	3,487.62
	<hr/>
Total receipts .....	\$67,851.95

The gross daily per capita cost in the Hospital for the year was \$2.16. If we should deduct from the total expenditure the amount advanced for maintaining the free dispensary, the pathological department, for permanent improvements and new equipment, and base the per capita cost upon the actual cost of maintenance of the Hospital proper, it would be ten cents less per day for each patient (\$2.06).

The only change which has occurred during the year on the Superintendent's staff was in the Housekeeping Department, when Miss Sutherland resigned in October, to take the position as Principal of the Training School of the Hartford Hospital at Hartford, Conn. Miss A. L. Scholfield of Port Colborne, Canada, was appointed by the Trustees to fill this vacancy on January 1st, 1906.

During the year the Hospital was presented with a complete Roentgen X-Ray outfit by Mrs. Thomas Bolton. This magnificent gift satisfies the needs of the Hospital so that we are able to meet any and all demands for X-ray work acceptably.

A generous donation from Mr. and Mrs. Harry Dalton of this city, made it possible for us to enlarge our sun veranda capacity, by building a spacious iron constructed porch adjacent to and connected with the ward for the children for their exclusive use. This new addition relieves the congestion of the main veranda, and also enables us to keep our sick adults and the children separated. Funds furnished by Messrs. L. C. Hanna, H. M. Hanna, H. R. Hatch, E. W. Oglebay, George A. Garretson, and Leander McBride enabled us to build a large veranda connected with the Nurses' Home, for the benefit of the nurses of the Training School.

I wish to express my gratitude to the Trustees, the Lady Board of Managers, and to the Visiting Staff of the Hospital, for their advice and support during the year.

My thanks are also due to those at the head of the department of the Hospital for their conscientious and loyal services.

Yours very respectfully,

A. J. RANNEY,  
Superintendent.

## REPORT OF THE SCHOOL FOR NURSES

To the Board of Trustees of the Lakeside Hospital:

Gentlemen:—I herewith submit the Eighth Annual Report of the Lakeside School for Nurses for the year ending December 31st, 1905.

As a result of the examinations held May 19th, the following nurses were awarded the prizes offered by the school:

### *Third Year Class.*

Miss Bertha M. Flohr (First Prize).

Minerva, Ohio.

Miss Edith S. Morgan (Second Prize).

New Philadelphia, Ohio.

### *Second Year Class.*

Miss Grace Noble (First Prize).

Oberlin, Ohio.

Miss Florence Ashton (Second Prize).

Brantford, Ontario, Canada.

### *First Year Class.*

Miss Ella E. Holbrook (First Prize).

Cleveland, Ohio.

Miss Emma A. Hawley (Second Prize).

Nepanee, Canada.

These prizes were awarded to the pupil obtaining the highest general average in theoretical and practical standing.

During the year no changes have been made in the general course of instruction. The preliminary course for the probationers continues satisfactory in every way, and the clinical lectures are most valuable.

It is with deep regret that we have to report the death of one of the members of the probationery class—Miss Leota Snyder, of Wooster, Ohio, who entered the school September 16, 1904. On January 26 she was taken ill with pneumonia, which was complicated with a serious form of heart disease. She died on February 11, after a very severe and pathetic illness of sixteen days' duration. Miss Snyder was a good student, a faithful and energetic worker, and up to the day of her illness had enjoyed perfect health.

Otherwise the general health of the pupils of the school has been excellent.

The Nursing Staff of the school now consists of:

OFFICERS.

Principal of the school .....	1
Assistant to principal .....	1
Night supervisor .....	1
Supervisor of probationers .....	1
Diet instructress .....	1
Head nurses .....	7
<hr/>	
Total .....	12

PUPILS.

Third year pupils .....	28
Second year pupils .....	28
First year pupils .....	41
<hr/>	
Total .....	97

During the year the following nurses have resigned their positions:

Miss Nellie Goodhue, supervisor of probationers, to take charge of the emergency department of the Roosevelt Hospital, New York. Miss Lottie A. Darling, Lakeside School, class 1901, was appointed to fill the position.

Miss Winifred Dudley, head nurse, ward H, resigned to be married. Miss Bertha M. Flohr was appointed.

Miss Jessie Christie, head nurse, ward L, resigned to take the position of assistant principal of the Training School of Toronto General Hospital. Miss Mary Crozier, head nurse ward B, was appointed in her place.

Miss Harriet E. Leet, head nurse ward E, resigned to do private nursing. Miss Mabel C. Thompson, class 1905, is filling the position.

Miss Adella Fridenstein, head nurse ward C, resigned on account of illness in her family. Miss Arvilla Walkinshaw, a graduate of the Children's Hospital, Toronto, was appointed.

The Registry established at the Hospital for the graduates of the school has been discontinued and all calls for graduate special nurses are now given through the Central Registry, established by the Graduate Nurses' Association of Cleveland.

The Alumni Association continues to hold the regular monthly meetings at the Hospital. These meetings prove to be of much benefit and pleasure to the members of the association.

The number of days of special nursing on private wards by the graduate nurses during the year—4,333½ days.

Several additions have been made to our library during the year. Total number of volumes in the Recreation Library, 368; Reference or Medical Library, 150 volumes.

During the year 7 pupils left the school:

- 5 discharged.
- 1 ill health.
- 1 illness in the family.

Number of probationers entered during the year.....	49
Number of probationers accepted during the year.....	15
Number of probationers not accepted and resigned.....	8
As the preliminary course will not be completed until April 1st, 1906, number of probationers remaining.....	26

The number of applications for admission to the school continues to increase.

During the year an effort has been made to accomplish a part of the special nursing of the Hospital by the pupil nurses, realizing the great benefit to the pupils in having the advantage of special nursing under the supervision of the school.

Number of days of special nursing accomplished in

Private wards .....	290½ days
Open wards .....	77 days
Isolation wards .....	314 days

Total .....681½ days

It may be of interest to report that for the year 1906 the Hospital has offered a special prize of \$75.00 to be given to the third year pupil writing the best paper on a subject selected by the Training School Committee. Also a prize of \$25.00 has been offered by Dr. Edward F. Cushing, to be known as "The Cushing Prize," for the best paper by a third year pupil on the subject "The Nursing of Sick Children."

The object of these prizes is to encourage the cultivation of the power of observation and the ability to write intelligently upon the knowledge gained, and thereby suggesting the possibility of gleaning information that may be of value to the nursing profession in general.

I wish to express my appreciation of the valuable counsel and support of the Training School Committee; of Dr. Archibald J. Ranney, Superintendent of the Hospital; of the kindly interest and the generosity of the Lady Board of Managers, and to thank those who have rendered me able and conscientious service.

Respectfully submitted,

ELIZABETH M. ELLIS,

Superintendent of Nurses and Principal of Training School.

## DEATHS.

GYN. No.	DIAGNOSIS.	OPERATION.	CAUSE OF DEATH.
1934	Abortion with retained secundines, septicemia, endocarditis.	D. & C.	General septicemia (Blood culture not obtained). Acute endocarditis.
1950	Epithelioma of vulva...	Excision of growth.....	Exhaustion.
2001	Infection following labor.	D. & C.	Septicemia (Blood culture negative). Tuberculosis of lungs, intestines, liver, kidneys, spleen and peritoneum.
2004	Endometritis R. & L. perisalpingitis, R. & L. chronic salpingitis, R. & L. perioophoritis.	D. & C. R. & L. salpingectomy supravaginal hysterectomy.	Post-operative shock with subacute septic nephritis.
2008	Adeno-carcinoma of L. ovary.	Exploratory coeliotomy.	Post-operative shock. (Bilateral bronchocele Pulmonary embolism.
2108	Endometritis, retroflexion of uterus, myoma uteri, tuberculous nephritis.	D. & C. L. partial oophorectomy, suspension of uterus, myomectomy, appendicectomy.	Tuberculosis of both kidneys. (B. coli from bladder). (Died 19 days following operation).
2119	Endometritis, R. & L. perisalpingitis and perioophoritis, R. & L. pyosalpinx, intestinal obstruction, fecal fistula (post-operative).	D. & C. L. salpingo oophorectomy, R. salpingectomy, R. partial oophorectomy. Separation of intestinal adhesions 12th day after primary operation.	Intestinal obstruction developed 12 days following operation. (Abdomen reopened, band separated. Intestinal perforations. Death on 16th day following primary operation.
2138	Endometritis R. V. O. R. follicular hypertrophy, retroversion of uterus.	D. & C. perineorrhaphy R. partial oophorectomy, appendicectomy.	Acute, diffuse, peritonitis (staph. pyog. albus). (B. coli communis).
2151	Ovarian cyst..... Moribund on admission.	None.	Drug-toxemia.
2156	Endometritis R. tubo-ovarian mass, cervical adenitis. Tuberculous peritonitis.	D. & C. Vaginal incision Excision of glands of neck 23 days after primary operation.	General miliary, tuberculosis, chronic caseous tuberculosis of fallopian tubes, ovaries, retroperitoneal glands, adrenals and thoracic duct.

## Gifts and Contributions to The Lakeside Hospital

All checks or property gifts for this institution should preferably be sent to E. G. Tillotson, Treasurer of the Hospital, Cleveland Trust Company, Cleveland; though they may be received by any other member of the Board of Trustees or by the Superintendent. The donor should state distinctly whether he wishes his gift to be added to the permanent Endowment Fund of the Hospital, toward the liquidation of its mortgage indebtedness, for the endowment of a bed, or for some other special department of the Hospital; if no specific object is mentioned, the trustees will assume that the donor intends his gift to be expended for the benefit of the Hospital in such manner as the trustees deem most necessary and advisable.

### Bequests.

Care should be taken that bequests be made out in the corporate name of "The Lakeside Hospital" of Cleveland, Ohio, and it should be distinctly stated if it is desired that they should be devoted to any particular department or added to any particular fund of the Hospital.

For information regarding particular needs of the Hospital, reference is made to the President's Report on page 2 of this book, or to any member of the Board of Trustees or the Board of Managers, or to the Superintendent.
